Investment

https://special.uzkimyosanoat.uz/en/activities/investment

The investment policy of the company is carried out in two main areas:

- the modern production of chemical products and the implementation of projects on modernization and reconstruction of existing enterprises with investments of foreign and local investors;
- attracting foreign investors in the privatization and denationalization of chemical enterprises in Uzbekistan.

The orientation of the investment of the company is an important part in the development of the chemical industry of Uzbekistan, to increase its production capacity and ensure the functioning of its mechanisms of the market economy.

More information about the objects to be privatized, investment conditions are available in the management of economic analysis, forecasting, and the privatization of the Company, on the website of The State Committee of the Republic of Uzbekistan for privatization, demonopolization and development of competition, as well as investment projects and their financing terms available from the Department of investments.
