A meeting was held between officials of Uzkimyosanoat JSC and the China Huanqiu Contracting and Engineering Corporation.
During the dialogue, the parties talked about strengthening cooperation. In particular, the discussion focused on attracting investments in production processes and implementing new mutually beneficial projects.

The meeting also focused on the discussion of ammonia and urea production based on Navoiyazot JSC and the production of sulfuric acid by processing phosphogypsum waste at Ammofos-Maxam JSC.

Following the meeting, the parties signed documents on the joint implementation of these projects.
