Representatives of UzkimyoSanoat JSC took part in an educational course dedicated to anti-corruption measures in public procurement. The training was held in Prague, Czech Republic, and organized by the European Institute of Applied Sciences and Management (EIASM).

The course, titled *"European Experience in Combating Corruption in Public Procurement,"* was conducted by highly qualified EIASM experts with extensive practical experience.

UzKimyoSanoat was represented by the Head of the Anti-Corruption and Compliance Department, M. Mavlyanov, and the Head of the Treasury Operations and Internal Procurement Department, O. Rasulov.

The study of international experience will help expand the use of modern methods and advanced mechanisms in public procurement, increase transparency, reduce conflict-of-interest risks, and ensure more efficient use of public funds.
